Advanced Presentation Skills

with Dr. John Grinder and Carmen Bostic St. Clair

“The challenges provided in the training exercises with Carmen and John were exhilarating and provided learning experiences that have unquestionably upgraded my coaching and communication skills.”

Peter Knight
National Coach, Golf Australia

A chance to be trained in NLP by Dr. John Grinder the co-creator of NLP, and Carmen Bostic St. Clair

John and Carmen have been presenting in the corporate arena for many years, both in verbal and non-verbal, or ‘living metaphor’ forms. Their stories of the metaphors they have invented and the presentations they delivered, with the amazing and lasting results achieved, command the audience’s attention and provide a blueprint that allows you to apply the same techniques to your work and personal presenting context.

The Presentation Skill Development program offers presenter skills including organisation, delivery, communication and influencing skills, enhancing the individual’s ability to communicate with others successfully to achieve specific business and personal outcomes.

Becoming a high-performance presenter takes high-performance states and behavioural flexibility

Presentation Skill Development is a five-day training seminar for presenters and trainers who want to take their personal and professional effectiveness to the next level, as well as for those new to presenting. By applying Neuro-Linguistic Programming, or NLP, the seminar coaches people in how to perfect their presentation skills. The principles have been proven across all kinds of professions.

Dr John Grinder

John Grinder is most notably recognised as the co-creator of Neuro-Linguistic Programming or NLP, universally regarded as the leading edge methodology in the study of human thinking and behavioural patterns.

.....

“It is reviving to be in the presence of a genuine artist worth modelling and to experience an uncontaminated training.

Training with John and Carmen is essential for anyone who truly desires extraordinary results beyond their current outcomes.”

Rebecca Mitchell
NLP Brisbane

Carmen Bostic
St. Clair

Carmen is Managing Director of Quantum Leap, an international organisation dealing with the design and implementation of cross cultural communication systems.
